

Logic Model

Goal: What does the program hope to achieve in the long run?

What difference will the program make for → <u>whom, by when?</u>	What will the program → <u>be doing?</u>	What information will the program use to → <u>document what it is doing?</u>	What and how much of a difference will the program → make, in what areas, for whom, <u>by when?</u>	What information will the program use to document the resulting <u>differences/changes?</u>
Objectives	Activities	Process Measures	Outcomes	Outcome Measures
